The Five Things Every Senior Repeats

1. Attendance below 75% is dangerous.
2. Join clubs during your first month.
3. Start projects in Semester 1.
4. Protect CGPA early.
5. Build friendships outside your branch.

FIRST 30 DAYS

Week 1

Everything feels unfamiliar.

Week 2

You start recognizing faces.

Week 3

Classes become routine.

Week 4

Campus starts feeling like home.

CLUBS WORTH YOUR TIME

Chakravyuha

Fastest route into projects and hackathons.

ACM

Build stronger CS fundamentals.

IEEE

Engineering and research exposure.

Team bi0s

Cybersecurity and CTFs.

AYUDH

Leadership and service.

E-Cell

Entrepreneurship and startups.

THINGS WE LEARNED THE HARD WAY

"I'll watch the lecture recording later."

You probably won't. Attend class.

"I'll join clubs next semester."

Most people never do. Join now.

"I'll start projects after first year."

The students who grow fastest start immediately.

ONE LAST THING

*One day you'll know every shortcut on campus.
You'll know where your classroom is. You'll know where your friends sit during lunch.
You'll stop feeling like a visitor.*

*You belong here.
See you on campus.*
